

The mission of the ASYSST School Based Youth Services Program (SBYSP) at Ewing High School is to provide a variety of year-round intervention, recreational, and support services to our students in a warm and professional environment. Services are structured for the purpose of youth achieving their goals as well as positive emotional growth. Our mission is to enrich and enhance the lives of youth; thereby increasing their likelihood for completing their education and developing the skills necessary for employment, a trade, or higher education.

We want to help students navigate their adolescent years and be healthy! Our activities and events are **free of charge** and open to all EWING HIGH SCHOOL students (*and their families*). Our services include counseling, learning support, career planning, after school recreation, college planning, and referrals to community agencies when necessary.

To participate students **MUST** register by completing the intake packet which includes parental consent.

Students especially love our After School Recreation ..which includes; pool table, table tennis, Wii, XBOX 360 and board games! We also have movie nights and holiday themed parties!!so look check out our posters around school and listen to the announcements for these events!

A Summer Recreation Program is also available free of charge to the first 30 students who register with us!

*Please note: upon registration you will be given a handout of rules and expectations. It is the students' responsibility to follow the rules of ASYSST; **ANY** student who violates these rules will be discharged from program.*
