evaluation summary.

Summary

Students learn skills and strategies to help them develop beliefs and behaviors that prevent violence, drug abuse/dependency, school failure and anti-social behavior. Good for diverse cultural populations.

Learning Objectives

1. Students learn the power of minds, learn how to keep power, rather than giving it away.
2. Students learn how thoughts form the actions of daily life.
3. Students learn how to talk to self to gain power from their inner voice.
4. Students learn how to change old thoughts and watch new actions appear as a result
5. Students learn how to unlock their personal power and use KIV in daily life.
